Life's a beach

The high street is awash with pieces of coral and lime-washed wood this summer, and it's just perfect for transforming your bathroom into a serene sanctuary. Adding natural materials to a neutral colour palette will fill your room with light and make it appear bigger. Opt for a shower with a large rain head for a touch of the great outdoors, and finish the look with a green houseplant and plenty of painted wooden accessories which look like they came straight from the seaside.
